### Pharmacy Instructions:

BIN Number: **610219**  
PCN: **DRX**  
GROUP: **MCSAVE363**  
ID: **Use Patient's Home or Mobile Phone Number**

**A Note to Patients:** Lidocaine 5% patches are approved for the treatment of post-herpetic neuralgia (pain from shingles) and should only be applied to intact skin. If your insurance *does not cover* lidocaine patches you may want to see if your doctor can process a prior authorization (a form indicating why this product must be used rather than alternatives and what it is being used for). If you choose, you may opt to pay for the lidocaine patches yourself, without insurance. If so, using this discount card may save you money on your prescription.

**Instructions:** Lidocaine 5% patches should be used *only as directed by your physician*. They are intended to be left on for 12 hours and removed for 12 hours. *Only apply lidocaine patches to intact skin*. They may be cut prior to the removal of the backing material which covers the adhesive.
